

Rotary Hammer Drill
40mm-1200W

2640

- Robust, high-efficiency topline rotary hammer with 3 operation modes: drilling, hammering and hammering with rotation
- Powerful 1200W motor enables high-intensity drilling and outstanding output
- Die-cast Aluminum housing enables light weight, superior heat dissipation and enhances body strength
- 360° anti-shock auxiliary Ronix-design handle provides a wide range of movement along with operator's comfort
- SDS max toolholder with robust power and impressively high drilling performance
- Optimal variable speed control for high-efficient safe operation
- Special grease lubrication system ensures higher efficiency and more durability
- AVS anti-vibration system minimizes vibration and reduces operator's fatigue during long hours of working
- Chiseling rotation function brings the top-ranking demolition speed in its level
- Lock button switch can largely reduce fatigue during high-intensive working
- Auto-stop carbon brush system can protect armature extensively
- Power indication light lets you know immediately when the cable breaks
- Service reminder light indicates the time to make the maintenance
- Extensive soft grip will reduce fatigue during long hours of working
- Overload safety clutch system can protect armature and ensures safety

Model	2640
Chuck Type	SDS Max
Power	1200W
Impact Energy	2-10J
Max Capacity in Concrete	40mm
No-load RPM	235-514 RPM

Impact Rate	1350-2950 BPM
Voltage	220V
Frequency	50Hz
Weight	7.5kg
Supplied in	BMC
Includes	Grease tube, 1 set of carbon brushes, Auxiliary Ronix-design handle, depth gauge
