

Hedge Shear

RH-3110

- Quality blade made of drop.forged SK-5 steel which is extremely sharp and cut all the way to the tip
- The shock-absorbing bumper will prevent shock during the trimming and reduce fatigue of arms and shoulders
- Wavy-blade design for mistake-free trimming, more efficiency and higher durability which can be sharpened for several times
- The ABS handles provide comfort and good grip while reducing hand fatigue during long use
- With the overall length of 60cm you can reach any shrub far and high
- Ideal for trimming and shaping shrubs and decorative plants
- Made In Taiwan
