

Hand Saw

RH-3622

- High-quality materials, careful processing and precise mechanics guarantee professional work and a long service life
- The sharp tooth saw technology uses three cutting surfaces to cut up to 50 percent faster than conventional hand saws
- Induction-hardened 3-sided tooth design stays sharp up to five times longer than standard teeth
- Ergonomically designed TPR handle grip resists slipping for better control and precision
- The composite coating protects the blade with more rust protection
- Provides real performance no matter what material you're working with
- Thick blade enables straighter cuts with less binding
- 20-inch thick body blade makes it ideal for cutting all kinds of wood and plastic

Model	RH-3622
Size	20 inch
Material	Stainless steel
Handle Material	ABS+TPR
Teeth Per Inch	9
Blade Type	Fixed blade
Weight	0.5 kg
Supplied in	Ronix color sleeve
